## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09 May 2005 has been entered.

2. Claims 1-8 and 10-47 have been presented for examination.

### ***Response to Arguments***

3. Applicant's arguments, see pages 14-15 and 17-18, filed 09 May 2005, with respect to claims 1-8 and 10-47 have been fully considered and are persuasive. The rejection of claims 1-8 and 10-47 has been withdrawn.

### ***Allowable Subject Matter***

4. The following is an examiner's statement of reasons for allowance:

The Examiner agrees with the Applicant's arguments that the cited references do not disclose a scheduler to determine which of the plurality of scanning machines is available to perform the security audit scan by examining a schedule for each scanning machine to identify scanning machines that are conducting another security audit or are scheduled to conduct another security audit scan.

As the record shows, it is well known for auditing the security of computer networks using a remote system comprising a secure application server, a plurality of scanning machines and a central computer as disclosed by the independent claims of the instant application.

Art Unit: 2131

Since no teachings or motivation can be found of a scheduler to determine which of the plurality of scanning machines is available to perform the security audit scan by examining a schedule for each scanning machine to identify scanning machines that are conducting another security audit or are scheduled to conduct another security audit scan, claims 1-8 and 10-47 are novel and non-obvious.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### *Conclusion*

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

7. The following patents are cited to further show the state of the art with respect to show scheduling security audits, such as:

United States Patent Application Publication No. 2002/0104014 to Zobel et al., which is cited to show a system for configuring and scheduling security audits of a computer network.
